mow continue to uphold by nearly all the means within its power, slavery—the most detestable form of despotism that ever cursed the earth?

The other religious denominations of the North have given the most patriotic and carnest support to the war. Perhaps we ought to except a part of the Protestant Episcopal Church, and beside this we remember no other. Now it is well worth while for the Catholic Church to inquire whether, in this age of progress and freedom, the vast majority of its clergy and people can afford to be any longer the tools of the corrupt knaves who, to establish slavery, would destroy the best Government the wit of man was ever able to divise. In the glorious future which it is believed God has in store for this nation, does this Church mean to be placed unmistakably upon the record as in favor of alavery to the last? When this "sum of all villainies" is about to perish and to be buried out of sight, amid the scorn of the civilized world, will a professed Church of Christ, cleave to its fifthy careass, and the most lilustrious clergymen stood rank and rank; that the out of sight, amid the scorn of the side of the poor man was a false, slanderous and malicious lie; that in Boston side by side, with the workman and the mechanic, the high est citizens, and the moch much and them echanic, the high est citizens, and the moch much and the workman and the mechanic, the high est citizens, and the moch much and the workman and the mechanic, the high est citizens, and the moch and the mechanic, the high est citizens, and the moch much and these workman and the mechanic, the high est citizens, and the moch and the mechanic, the high est citizens, and the moch and the mechanic, the high est citizens, and the moch much and the workman and the mechanic, the high est citizens, and the moch much and trank; that the out of subtral and rank; that the out of such and rank; that the out of the bour in a cluster and rank; that the out of the poor man was a false, slanderous and malicious lie; that if the three hund and writes. One hundred and nine field pieces, and thirty three slege gons, mostly columbiads, were found on the river works, and in those at the rear. Many of the guns are very valuable. There is no way yet to compute the amount of ammunition, camp equipage, transportation trains, etc., taken. In dollars and cents it would amount to a large sum. In the arsenal I saw a large number of the Mississippi bowic knilves, some two feet long. This is rather suggestive of refaction upon the usages of civilized warfare.

By an error of some one, our forces were repulsed on the 18th, at our extreme right where Brigadier General Lamma, of lows, to commanded. For this error Gen. Of all the Catholic publicists in the country, the editor of this Beview has been the only one to appland or even to approve his truly particite and loyal act. That sermon more than atomed to us for all that we had personally suffered from him, for it was a loyal service to our country. Had he been backed up by the Bishops and clergy of the loyal States, the Northern people would have been united in prosecuting the war, and the peace party would never have been organized; for the leaders of that excernible party, know perfectly well that, though the foreign born conniction and their children, the majority of whom are Catholics, are not all who are ready to follow them, yet, that without the assurance of their adherence they could hardly railly a-corporal's guard. Individual Catholics have been loyal, but they have been so in gitte of reproach and obloquy from their Catholic bristness, and the bitter invectives of sin-Catholic organs. What more could the Know-Nothings have saked of us in their justification?

GARN Cassas, Fight Miles Norm or proceedings of the Leavementh Conservative.

Arrived here about noon to day. We expected to meet the rethel, as we awa't roops counting out of the timber before we reached here. They proved to be the accord of a Union train retaining from Fort Gibson to for Scott. When the old man (Blunt) heard of an enemy being in the brush, he accused to be a new man. He looked to me like a man who had bet his last card and won. He was all alive, active, eminusiastic and veady for the work. I really believe Blunt with ten men would fight a thousand rabels before he would retest.

constout on inscinerous action has it was the determination of the Republicans, when they had put down the asiavehoiders, to turn round and put down the Catholic religion in this country, as if there was, or could be, any natural relation between professing the Ostholic religion and the holding of slaves. But upposed such a thought had been emericated, what was the proper course for Catholica totake? To unite with the slaveholders, identify our Church with slavery and robellion, and clearly prove ourselves disport? Unhappity, we Catholica seem to imagine that we have power only to betruet, and into our influence will be null, unless exerted in some work of destruction, or to defeat some mational purpose. To express our sympastic with work. I really believe Blunt with ten men would light a thousand robels before he would retical.

I the state of the ten to the granding a train from Fort Scott had a light with Gen. Cooper and Col. Stand Waitis. The rebels numbered in the state of the standard of the s thouse ause, would seem to most people the way to bring about the very result apprehended, and which it was our listerest and our duty to grand against. The government will anceced; the roboliton will be suppressed, and the Union will be reasoned, who will be firmer and atromper than over. When that is done what will be our position, if we have succeeded in identifying our Church with the cause of slavery and rebellion, and demonstrated to the world that American Catholics love not liberty, and hold that they have the right to resist the legal government, and the legitimate authority of the nation to which we have sworn allegiance? In vain should we appeal to instances of individual loyalty among Catholics, for it would be abown that they were the exception, not the role. In vain would Catholics clut our ficeien for though that has been uniformly loyal and true to the government, the ensemies of Catholics could castly prove that in being so it lost the confidence of the Catholic community, and was interdicted by the Blabop of Richmood, denounced by the Blabop of Richmood, denounced by the Blabop of Catholics, and officially declared by the Blabop of Catholics, and officially declared by the Blabop of Richmood, denounced by the Blabop of Catholics on these countries of the catholic community, and was interdicted by the Blabop of Richmood, denounced by the Blabop of Catholics, to these journals have not been under the propertion of the Catholic body in the United States of the Catholic body in the United States of the catholic body in the United States of the regression of the catholic body in the United States of the regression of the sentiments and opinions of the Catholic body in the United States of the surpers of the sentiments and opinions of the Catholic body in the United States of the proportion of Catholic body in the Louanty and the reason of the Catholic body in the Catholic body in the same of the proportion of Catholic body in the case of the Link, for the purpose of acquiring military experience an

At a meeting held on the 30th day of July by the Chicago Working Men's 'Association, one of the most active organizations in this city, and numbering over 1,000 members, Mr. S. Schoenemann moved that the Chicago Working Men's Association, the representative of the German working men of Chicago, declare its position in regard to the Conservation law, and the enforcement of the same; and that a committée be appointed to draw up resolutions upon this suiject; and that it also declare itself ready to organize for the jurpose of preserving and maintaining law and order in this city. This motion was unanimously adopted, and Leon Straus, Geo. Schneider, J. Schoenemann, Mr. Mecheike and Dr. Ernst Schmidt, were chosen such committee. These gentlemen retired for a short time, and then brought in the following resolutions, which were unanimously and with great enthusiasm and applause, adopted. Wirkers, The empressey of the law must be maintained above all things and under all circumstances, if a state of anarchy shall not arise, which shall endanger the life and property of the citizens.

In an extract from a Springfield paper we

Masonic brethren at that place, which upon inquiry we find is served; sustained by the facts. We do not propose to enter into the quarrel—it has already gone much too far for the honor and credit of the lime-honored Society—but the simple facts are these:

Mr. Biair, Grand Master of Illinois, has for the year past been rendered uneasy by the proceedings of his Grand Secretary. In what direction his suspicious pointed, whether financial or otherwise, we are not informed; but the conclusion was, that he fait it necessary, under a solenn sense of responsibility to the Order, to remove him from office, and refer the whole matter to the next Grand Lodge. That he had aright to do this—being responsible only to the Grand Lodge, for the abuse of his preregative—is admitted, we learn, by all Masonic writers of reputs. Independing the Grand Secretary, he deputed Messrs. B. T. Patrick and George W. Deering of this city to go to Springfield and take possession of the effects of the Grand Lodge. In this they were most with an act of personal collence, an account of which, much exagginated, has gone the rounds of the press; but the result is not affected thereby, for the Grand Secretary, Re'yoolds, was deposed, and Mr. Deerice an autilitied, is ids eater.

article, and a reply to it, in relation to the Union Guards of this city. The statements in the article are correct in every particular, and "Union Defence," in his reply fails to state a very important fact—which is as fullows: The sub-committee of the Union Defence Committee met the regiment, of which the Union Guards was a part, and told them that unless they organized under the State law, and decide M. Hough, Rey. (Noned of the regiment, and such other officers as they might dictate, they (the sub-committee) would have nothing to do with the regiment. The proposition was put to the vote, and every man in the regiment voted "No." These are the facts in the case.

I am happy to state that a late meeting of the officers of the regiment, every man voted his willingness to organize under the State law, but only under their did specied Coonel, John Hancock, Eur., but ther decline most respectfully entertaining any proposition that looks towards the appointment by others of their field officers, as they faster themselves that they are fully competent to elect such mon as they are willing to serve under.

Captain of the Union Guard.

REMARKS.—We do not desire to give piace in our columns to any lengthy discussion of the matters at issue between some of the on.

n our columns to any lengthy discussion of the matters at issue between some of the em-ryo military organizations, and the Union Defence Committee. We are confident that bryo military organizations, and the Union Defence Committee. We are confident that these is particular monugh at the bottom of the whole movement to bring the matter to a proper conclusion without any ventilation of temporary misunderstandings. But the above communication is wrong, and based on a misapprehension which we cannot allow to pass uncorrected. The writer leaves it to be more than simply inferred, that the regiment desires the appointment of Col. John L, Hancock, while the Union Defence Committee not only oppose the appointment of that gentleman, but insist on the choice of Col. R. M. Hough, a trinity of errors, which the action of the gentleman first-named can and should set at reat. We sak Colonel Hancock to state publicly whether he has not been offered the Coloneley of this regiment by the Union Defence Committee and declined it through personal and

cock to atste publicly whether he has not been offered the Colonelry of this regiment by the Union Defence Committee and declined it through porsonal and business reasons, and whether a renewal of the offer is of no older date than the close of last week, and is still unaccepted by him. We know that if Mr. Hancock will receive the appointment, it is his, and to the satisfaction of the community, and not less so to that of the Union Defence Committee, but if he cannot accept it, it is his duty to make his declining of the offer sufficiently public to set at rest charges like the above, which have become so rife that we give this a place, to accompany it with this explanation.

Tim Mindical. Immoditio.—A few days ago Dr. Lewis, of the London Eye and Ear Infir-mary, brought sult against Dr. Reynolds, who claims to be a former partner, changing him with larceny of \$100; yesterday criminal ac-tion was commenced against Lewis, for libel and perjury, by Reynolds, growing out of the previous hearing. The case was brought be-fore Justice De Wolf yesterday, and after two or three hours of mixed discussion, without

SERVED HIM RIGHT.—A meeting of the citiens of Chicago was held last night, at the Light Guard Armory, with a view to the formation of military companies in Chicago. As an early hour the eggetter of the Cepperbead concern on the body street, was on hand taking notes, which being seen by some patriotic man in the antilence, he was politically requested to depart. He departed, leaving no sign.

A Good Tike.—On Thursday the 50th inst, the Congregation and Sunday School of St. John's Episcopal Church take their eighth annual excursion and basket phonic. This year they go to Hass' Park, and among the attractions offered are foot races by the ladies, archery, quolis, base ball, etc. "St. John," stways popular, is particularly so in pie nies. We look for a crowd as the tiexels are placed at the low price of fifty cents.
